Faridabad - Haryana

SUMMARY

MERN Stack Developer with **3Years** of experience architecting high-performance backend systems and scalable Admin Panels for **Betting Games, NFC-Card Management, Ride-booking, and Fintech (Rewards)** platforms. Expert in building secure APIs, real-time data processing, and user-centric UIs with a focus on clean, maintainable code. Proven track record of solving complex technical challenges and delivering robust, end-to-end digital solutions.

WORK EXPERIENCE

StealthTechnocrats Pvt. Ltd - Full Time

Feb 2025 - Present

Project : Faktum (Germany-based Customer Rewards & Benefits Platform)

- **Core Logic:** Engineered a sophisticated OCR-driven loyalty system where users scan invoices to earn rewards (1 Point per €100), managing complex benefit plan requests.
- **System Design:** Architected the complete database schema and backend using Drizzle-ORM, MySQL, and Zod for strict type-safety and data validation.
- **Admin Ecosystem:** Developed an automated eligibility engine and approval workflow for admins to verify user claims and process benefit disbursements.
- **Full-Stack Ownership:** Delivered end-to-end features including high-performance Customer App APIs and a data-intensive Admin Dashboard.

Project : Rideable (Healthcare Mobility Platform)

- **System Architecture:** Developed a scalable end-to-end platform (similar to Ola/Uber) for wheelchair-accessible car bookings, managing complex workflows for Users, Vendors, and Admin.
- **Backend & Automation:** Engineered high-performance APIs using Fastify and Drizzle-ORM (SQL), implementing Node-cron for automated tasks and Redis for efficient caching.
- **Real-time Operations:** Integrated Socket.io for instant vendor notifications and real-time booking updates, along with Cloudinary for secure medical/identity document uploads.
- **Compliance & Security:** Built a robust Admin module for Vendor/Driver onboarding, featuring Third-party API integration for Aadhaar/DL verification and JWT/UUID for secure multi-role authentication.
- **Frontend Excellence:** Crafted a professional dashboard using React.js, Shadcn UI, and Framer Motion, optimizing data fetching with TanStack Query (SWR) and form validation via Zod.

Project : Money Mash Games & Admin Panel (Betting & Gaming)

Tech: Node.js, Fastify, React.js, Redux, Node Forge, Firebase, MongoDB, Redis

- **Backend & Admin:** Developed a high-concurrency admin panel using Fastify for real-time user management (view/block/delete), transaction history, and withdrawal request processing.
- **Security:** Implemented Node Forge for encryption/decryption of sensitive data and integrated PAN/Aadhaar-based KYC verification.
- **Payment Integration:** Integrated SabPaisa payment gateway and managed complex wallet features including deposits, bonuses, and withdrawal tracking.
- **Engagement:** Implemented FCM (Firebase Cloud Messaging) for individual and bulk push notifications and integrated Analytics for user activity tracking.

Project : GST Invoice System

Tech: React.js, Material UI, Axios

- Developed a fully responsive frontend using Material UI and integrated complex GST calculation APIs using Axios.
- Developed an internal Excel import/export engine for bulk-uploading business invoices and generating GST reports for specific date ranges.

Project : Smart Digital Business Card (NFC-Card Management)

Tech: Node.js, NestJS, TypeORM, Ionic, React Query, JWT, Google OAuth

- Developed scalable backend APIs using NestJS and TypeORM for efficient database management.
- Built a responsive mobile UI using Ionic Framework and managed state with Redux/React Query.
- Secured the platform using JWT for token management and Google OAuth for seamless authentication.

Project : Spirals Health

Tech: React, Node.js, Axios, JSON Web Tokens, React Router DOM

- Developed user authentication (JWT/OTP) and core features like doctor search and appointment booking using the MERN stack.

EDUCATION

- **BCA** | Chandigarh University | **CGPA: 7.03**
- **12th & 10th** | Haryana Board & G.City Public School | **60.04%**

TECHNICAL SKILLS

- **Backend:** Node.js, Express.js, NestJS, Fastify, REST APIs, Server Architecture, Authentication & Authorization, Payment Integration
- **Frontend:** ReactJS, NestJS, TypeScript, JavaScript (ES6+), HTML5, Tailwind CSS, MaterialUI, ShadCN, State Managment(Redux/Zustand)
- **Database:** MongoDB, SQL, Drizzle ORM, TypeORM, Redis, Database Design, Schema Validation
- **Tools & DevOps:** Git / GitHub, Nginx, CI/CD Basics, Linux Server Management, CI/CD Basics
Firebase Analytics, Push Notification, Node Forge (Security), Postman.
- **Testing & Design:** Postmen API Testing, Figma, UI/UX Understanding,

ADDITIONAL INFORMATION

- **Languages:** Hindi , English
- **Certifications:** MERN Stack Development , Web Development
